THIS IS FINE

GitHub Copilot SDK agents

Copilot SDK Custom Agents

Adversarial Review

Customize your code review workflow to include adversarial review with multiple models

Full Observability

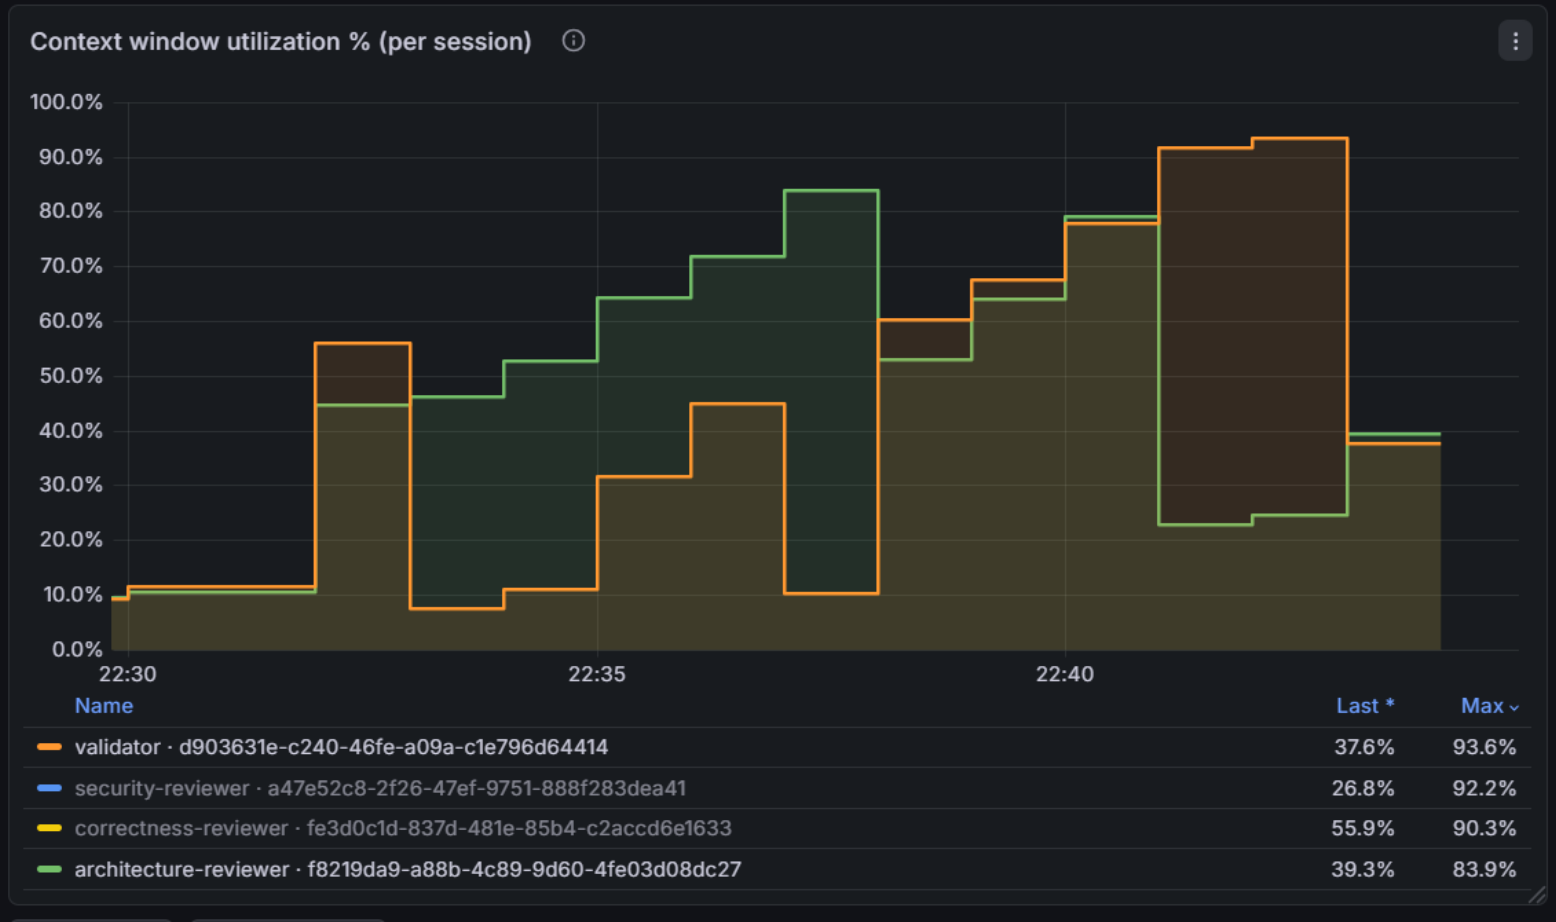

Ability to setup OpenTelemetry: reasoning traces; metrics; token costs; etc

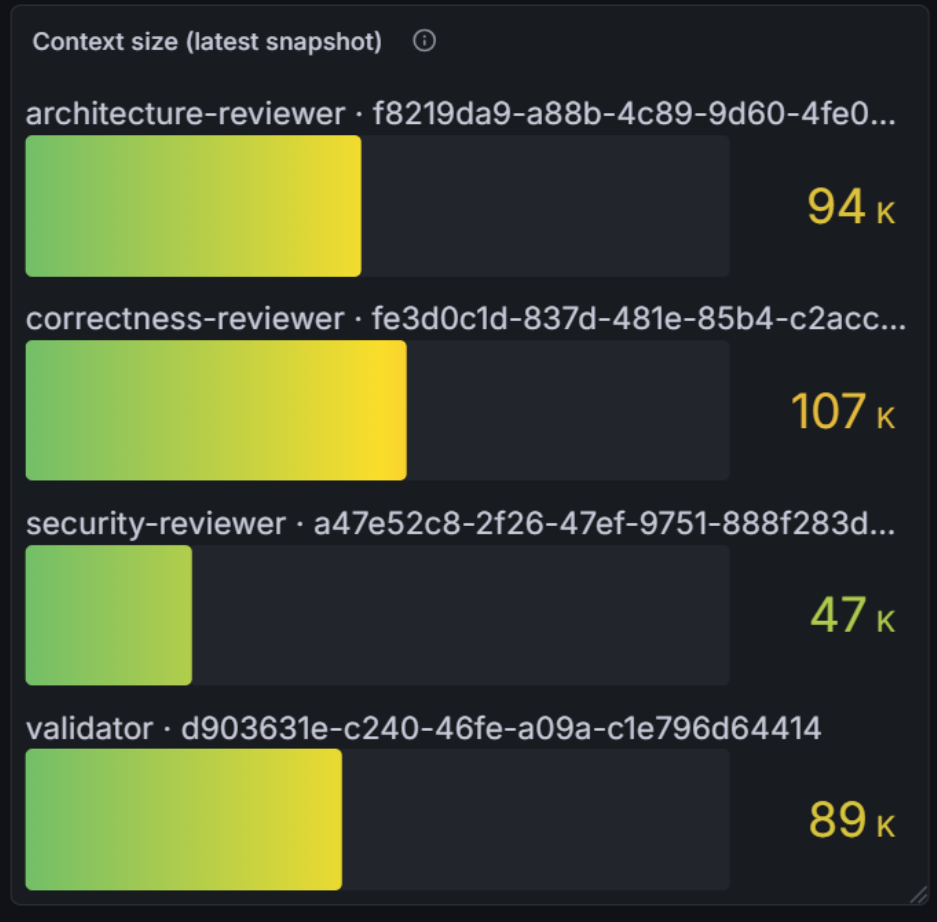

Custom Sub-Agents

Extensibility of specialized sub-agents and specific tools for each

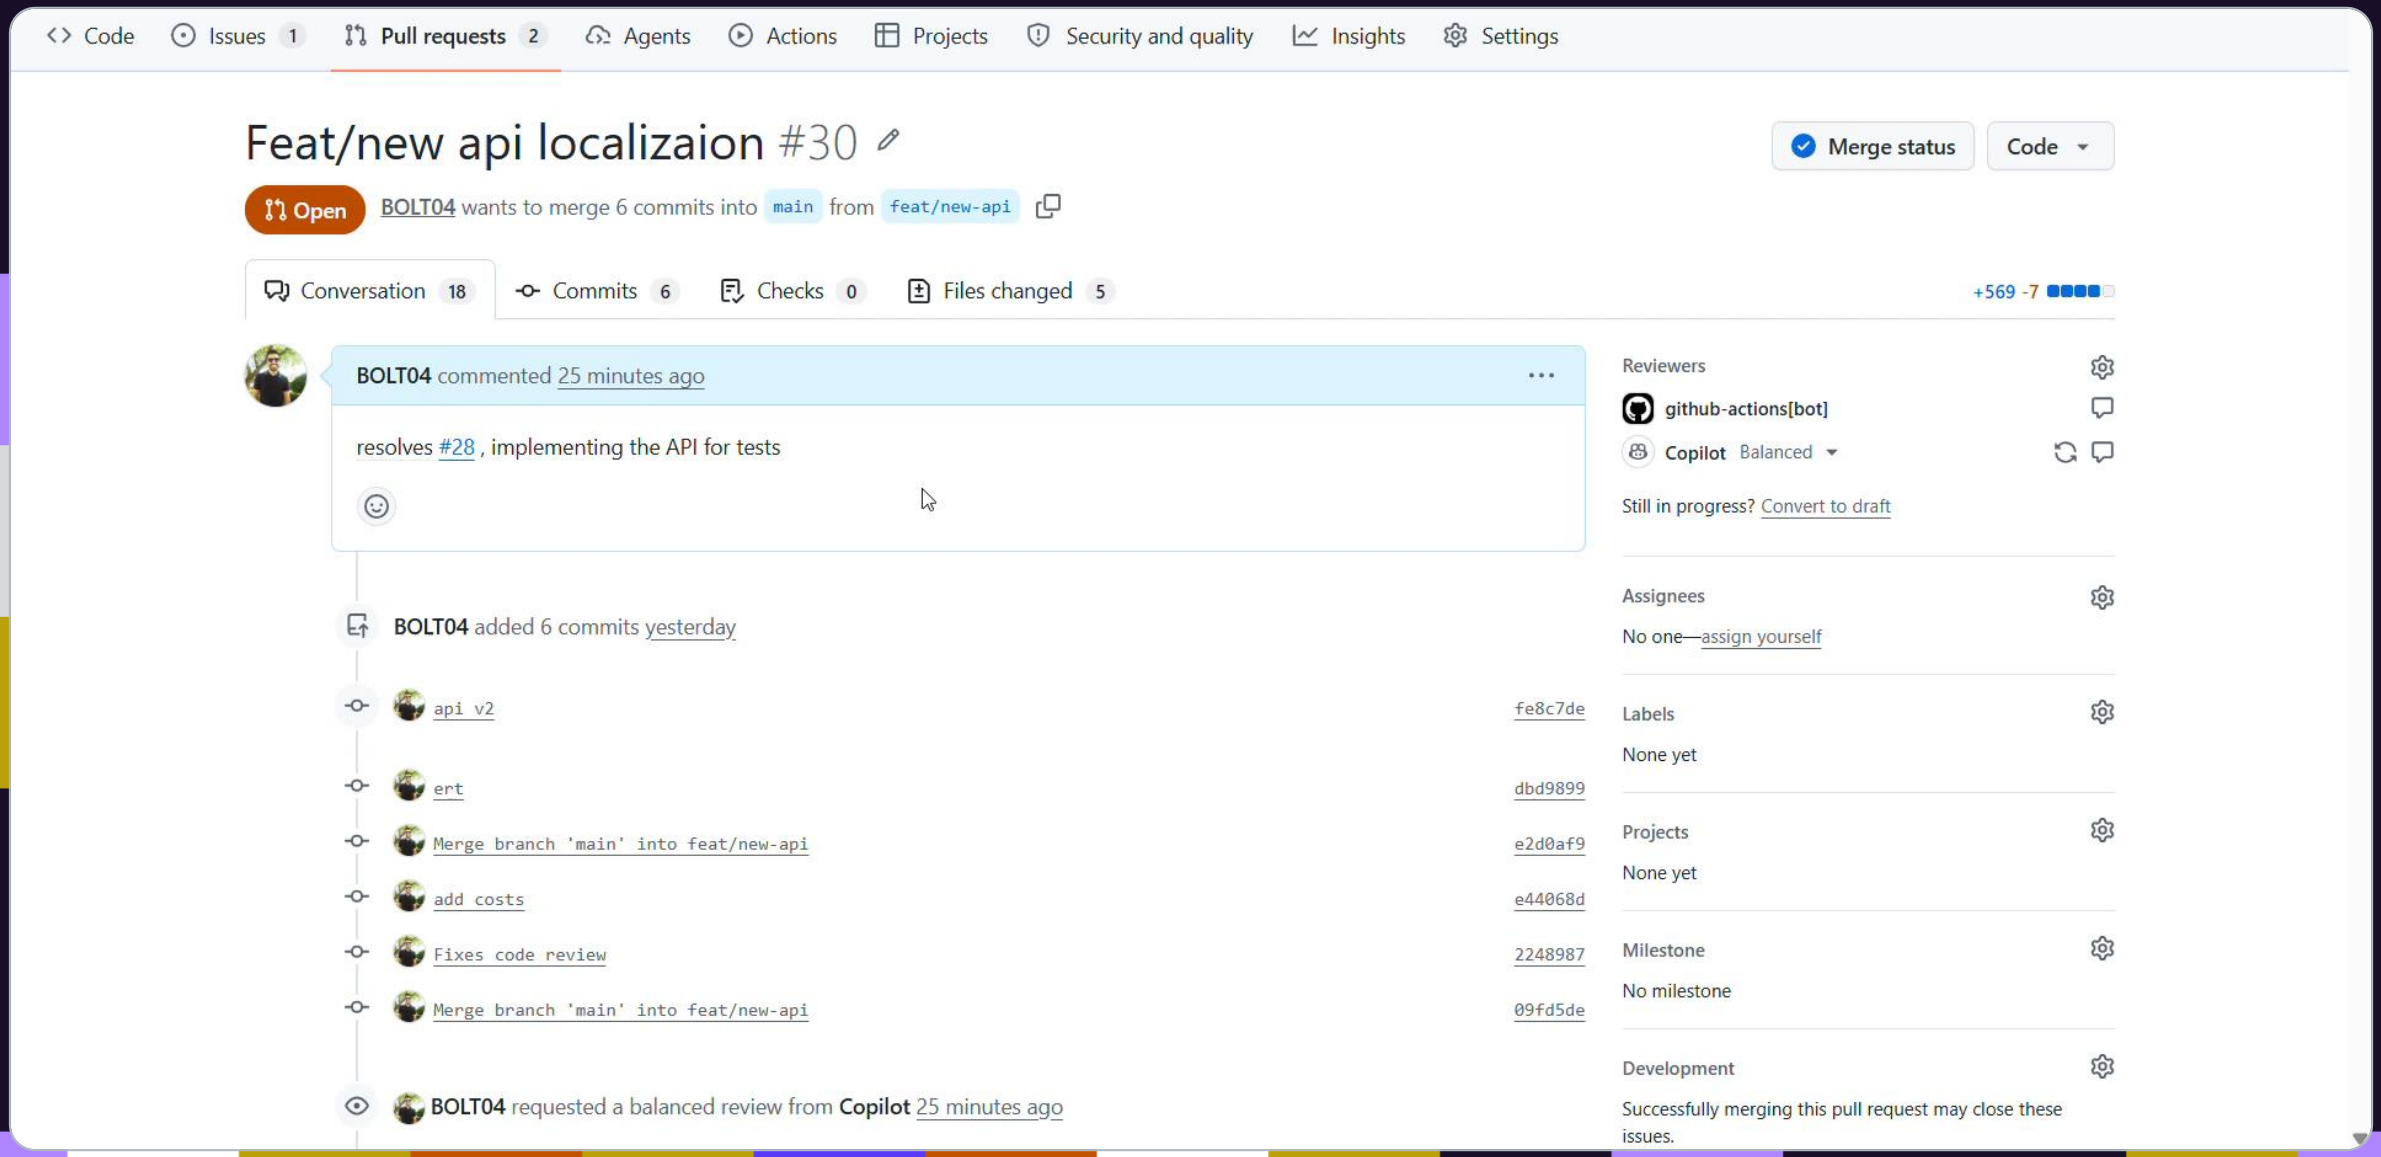

COPILOT SDK

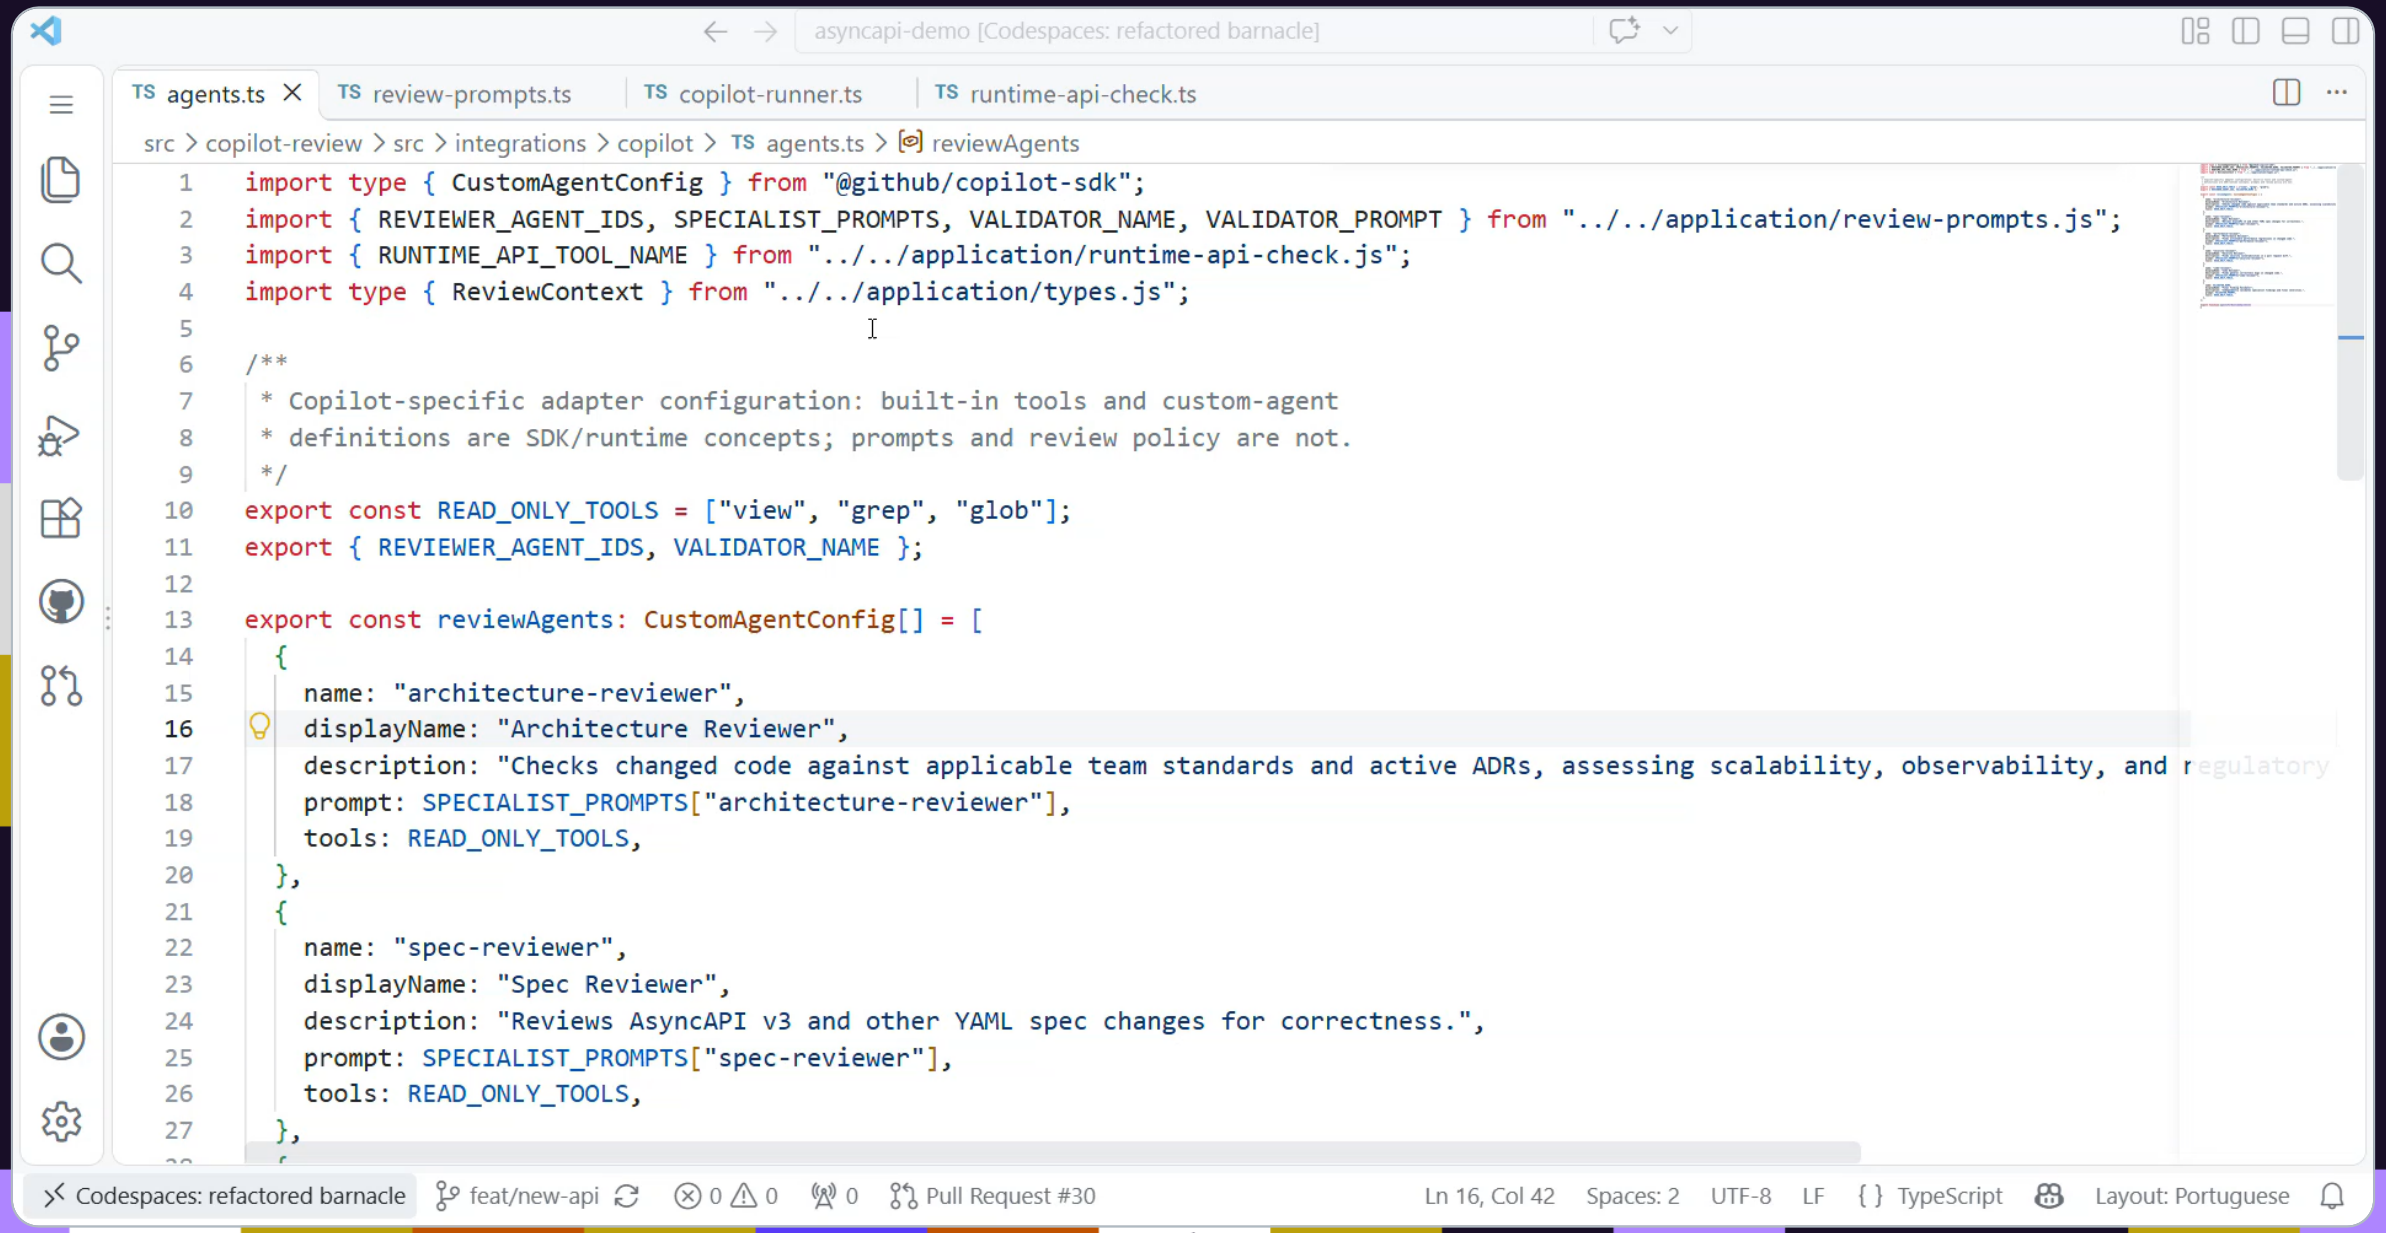

Full Observability

Main Takeaways

Main Takeaways

1. Add agent skills for critical concerns
2. Measure metrics for SDK custom agents
3. Keep investing in your engineering judgement
